ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRL-6181-1]

National Oil and Hazardous Substances Contingency Plan; National Priorities List Update

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; notice of deletion of the Operable Unit 2 of the South Andover Salvage Yards Superfund site from the National Priorities List (NPL).

SUMMARY: The Environmental Protection Agency (EPA) announces the deletion of the Operable Unit 2 of the South Andover Salvage Yards Superfund Site in Minnesota from the National Priorities List (NPL). The NPL is Appendix B of 40 CFR part 300, which is the National Oil and Hazardous Substances Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. This action is being taken by EPA and the State of Minnesota, because it has been determined that Responsible Parties have implemented all appropriate response actions required for this particular operable unit. Moreover, EPA and the State of Minnesota have determined that remedial actions conducted at the site to date remain protective of public health, welfare, and the environment.

EFFECTIVE DATE: October 28, 1998.

FOR FURTHER INFORMATION CONTACT: John O'Grady at (312) 886-1477 (SR-6J), Remedial Project Manager or Gladys Beard at (312) 886-7253, Associate Remedial Project Manager, Superfund Division, U.S. EPA—Region V, 77 West Jackson Blvd., Chicago, IL 60604. Information on the site is available at the local information repository located at: Andover City Hall, 1685 N. W. Crosstown Blvd., Andover, MN 55303. Requests for comprehensive copies of documents should be directed formally to the Regional Docket Office. The contact for the Regional Docket Office is Jan Pfundheller (H-7J), U.S. EPA, Region V, 77 W. Jackson Blvd., Chicago, IL 60604, (312) 353-5821.

SUPPLEMENTARY INFORMATION: The portion of the site to be deleted from the NPL is: Operable Unit 2 of the South Andover Salvage Yards located in Andover, Minnesota. A Notice of Intent to Delete for this portion of the site was published September 15, 1998 (63 FR 178). The closing date for comments on the Notice of Intent to Delete was October 14, 1998. EPA received no comments and therefore no Responsiveness Summary was prepared.

The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund-) financed remedial actions. Any site or portion of a site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.425(e)(3) of the NCP states that Fund-financed actions may be taken at sites deleted from the NPL in the unlikely event that conditions at the site warrant such action. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.
